THE FREEDOM FORMULA

The world's leading entrepreneurs and professionals reveal their secrets to help you achieve the freedom you've always desired in **HEALTH, WEALTH & SUCCESS.**

Alan Bonner | Mentor to Ambitious Entrepreneurs

"Ink and think BIG" - that's the best formula I could give anyone. Everything is a result of thoughts and actions, so make your thoughts/goals BIG, and as soon as you think it - ink it! Join the 1% of the population who have written goals, because there's something of magical significance between thinking your goals and writing them down."

Perminder Chohan | Managing Dir., Desjardins Financial Security Independent Network

"Think of every day as a learning process. It's important to always continue to learn and improve as days go by. My success has been a blessing. I'm grateful I've received opportunities where my skills were fully utilized, and I had the ability to grow and expand them. Never ignoring the opportunity to learn is the way to find freedom."

Samuel E. Cohen | Founder and CEO of Amazon Consulting Experts

"Everything starts with a thought. The implementation of that thought along with a strategic plan, a keen awareness and with a desire to learn is a potent formula. Success lies in the heart of those willing and committed to understand that there is little difference between obstacle and opportunity."

James E. Dicks Jr | CEO, DNA Pulse LLC

"Create a process around successful testing, and then spend to diminishing return. Your success can be measured by your perseverance; the only real failure is when you give up. Otherwise, you just learn another lesson on what not to do next time. Or you can save time, money and peace of mind by finding a mentor and learning everything you can from them."

J.W. Dicks, Esq. | Publisher, ThoughtLeader® Magazine

"The best way to rise above your competition and excel in any field is to build your personal brand. Demonstrate to your target market exactly how you answer the needs they have and can deliver what they are looking for. Don't try and compete on price, but show a strong value exchange for your services."

Lindsay Dicks | CEO, CelebritySites™

"If you always do what you've always done, you'll always get what you've always gotten. If you're looking for more freedom, you need to be willing to look outside the 'norm.' Success is about the choices you make along the way. If you're not where you want to be, in your business or in your life, change it."

Nehemiah M. Douglass | Founder, Illuminated Markets, Ltd

"Keep a firm understanding that everything is a process. Every setback, and every failure. Shift your mind to see your shortcomings as purposeful. Although there may be pain, it's always temporary and always for a reason. Learn how to empower yourself through your failures to see the bigger picture. Keep faith. Success is your responsibility."

Tracy Martino | CEO, T. Martino Brands, LLC

"When you bypass your limiting beliefs and patterns you will create a freedom from the chaos, stress, and fear in your life. From this place you will access higher brain functions to make effective decisions, increase communication, and create a better quality of life. Co-create within chaos and be free."

| www.TracyMartino.com

Nick Nanton, Esq. | CEO, Celebrity Branding® Agency

"The ultimate freedom comes from simply being yourself. In our increasingly commoditized world, the one differentiator between you and your competition is YOU. By using your personality in your business, you'll attract those who you want to do business with and repel those who are a bad fit to begin with. Feel free to just be you!"

Greg Rollett | Founder, Ambitious®

"The best thing you can do to create freedom in your life is to help someone else achieve his or her goals. Instead of focusing on you, focus on your market. Teach them something. Train them. Inspire them. Give them hope. By doing this you will create unlimited freedom in your own life."

| www.Ambitious.com

Harry A. Smith, CRPC®, CIMA® | Sr. VP Financial Advisor, RBC Wealth Management

"Retirement Freedom Formula: A successful retirement plan starts with the end in mind. You should be working in collaboration with your advisor to implement financial strategies that are flexible and always working toward maintaining your standard of living. You need a realistic approach that seeks to minimize volatility and maximize results. Money is important but what your money does for you is more important!"

Rizi Xavier Timane | Actor, Singer and Pre-licensed Psychotherapist

"My secret is having a passion for everything I do and never limiting myself. My passions are diverse—singing, acting, being a pre-licensed psychotherapist, eating right and exercising—and I give each of them my all. Because when you're doing what you love, what makes you happy, and what ignites your spirit, wealth naturally follows."

John P. Trowbridge, M.D. | Integrative Medicine Specialist, Life Celebrating Health Association

"Success demands a competent doctor with expertise to keep asking 'Why?'—to determine then treat the root causes of your problems...not just symptoms. Drugs and surgery are rarely the answer. Natural healing resolves most illnesses and injuries: remove what's 'blocking' your systems, provide 'nutritional factors' essential for recovery, lastly find and flip on 'switches' required for robust repair and rejuvenation."
